GRIGGS STREET BIKEWAY: PUBLIC MEETINGS

You can be part of this exciting project that will fill gaps in our transportation network!

Through a Federal Non-motorized Transportation Pilot Project grant, the City of Saint Paul is preparing to make bicycle and pedestrian improvements on Griggs Street (between Summit Avenue and Minnehaha Avenue) in 2012. Now is the time to get involved to help determine which improvements are selected to help make our city a safer and better place to bike!

Monday, October 3rd
7:00 – 8:30pm
Dunning Recreation Center
1221 Marshall Avenue

Learn about the goals of this project and Griggs' role in the transportation network. Help us identify problem areas and influence how we can make Griggs better for all users.

> Sunday, October 9th 1:00 – 2:00 pm

Intersection of Griggs Street & Summit Avenue Chat with City Staff about design options to make Griggs better as we bike the street together!

Tuesday, October 11th
7:00 – 8:30pm
Dunning Recreation Center
1221 Marshall Avenue

Give feedback on the design options developed as a result of the first two meetings.

Each of these meetings will shape the staff proposal to the City's Transportation Committee. For project information, and online feedback options in October visit www.stpaul.gov/griggs!
